

May Half Term Bean Plant Home Learning challenge.

The children will be taking their bean plants home today so that they can look after them during the half term holiday.

As we will miss the exciting growth of these plants in the Wrens classroom we would love it if your child could send us some pictures, writing, photographs or videos of the progress of their plant and upload it onto Tapestry. Some ideas of what you could do are:

Can you draw a picture of how your bean has changed since you planted it? Can you write a sentence about it?

How tall has your bean grown? Can you measure it?

Can you draw a picture and write about how you have taken care of your bean plant?

Can you draw a picture of how you have taken care of your bean plant?

Can you write a story about what might happen if you could climb your beanstalk? What would be at the top?

We look forward to looking at Tapestry to see how your bean plants are getting on!
