

1TS Newsletter - Week Beginning 19/01/2015

This week we have read the story 'Superworm' by Julia Donaldson and used it to focus on rhyming words. In maths we have been carrying out addition and subtraction problems and working on length. At the beginning of the week we studied the Hindu festival of colour, Holi. We have also been looking at different materials and comparing properties.

Our phonic sounds this week have been th, ng and ai.

This Week's Home Learning Challenge: Materials

This week we would like the children to look at their toys and name the materials that different toys are made out of. Also consider why different materials are used for different toys, eg why is fabric used for a cuddly toy and not wood?
