

## Wrens Newsletter - Week Beginning 24/04/2017

This week the children have been enjoying the new role play equipment and finding out all about the role of a builder and construction work. They have been designing their own buildings and drawing floor plans of their buildings. They have been measuring their models using non-standard measure.

We have introduced the book *The Tiny Seed* and begun to talk about some of the common garden plants we might find in our area. The children have enjoyed planting some seeds in out pots and containers and talking about how a seed grows and changes through the seasons.

In phonics we have revised the **igh** sounds and continued to work on the reading and spelling of Phase 2 and 3 tricky words.

In maths we are working on counting on and back from any number up to 20. We are also working on instant recall of 1 more and 1 less than any number up to 20.

We are very much looking forward to our class trip to Kew Gardens next Friday 5<sup>th</sup> May. There are quite a few parents that still need to arrange payment for the trip. Please could you do this as soon as possible. Thank You.

Finally... just a quick reminder that the newsletter will not include a home learning challenge. This is because we sent out a home learning grid at the end of last term. Can we just remind you to post any home learning on your child's tapestry page.
